City of Huntington Beach Surf Contest Rules and Regulations

Revised 09/2011

1. Check-In

All contestants are required to be checked-in, with their correct contest jersey, at the waters edge at, or before, the 5-minute warning. It will be the contestant's responsibility to report to the ready area on time. Contestants who report after their heat has started will be permitted to surf in their heat for the remaining time. Contestants who report after their heat has finished will be out of the contest. Only those surfers listed on the printed heat sheets will be allowed in the contest. No entries will be permitted after heat sheets are printed. No beach sign-ups.

2. Timing & Wave Count

All preliminary, quarter-final, semi-final, and recharge heats will be 15 minutes in length, with the best 2 waves scored, with a 10 wave maximum. All final heats will be 20 minutes in length with the best 2 waves scored, with a 15 wave maximum. A contestant will not be scored after reaching the wave maximum, unless he interferes with another contestant during the heat.

All heats will start from the beach, unless otherwise indicated by the competition director. Heats will begin with 1 BLAST of the horn and a GREEN INDICATOR. A YELLOW INDICATOR marks 5 minutes remaining. 1 BLAST of the horn and a GREEN INDICATOR will end the heat and start the next heat. All competitors must return to the beach after the heat has finished in a prone position. Standing after the heat has ended is a 2.5 point penalty of his total score on each of the judges score cards. There are no breaks between heats. The competition director can stop the event at any time.

3. Scoring

Three judges to score each heat. Scoring will be 1-10 points, in tenth of point increments. The top 2 wave scores will be added to award the score and placing with the other competitors from each judge. All ties will be broken on the tally sheet first using a plus/minus system. In the event of a tie on the tally sheet, the judges heat sheets will be used. The surfers one best wave will be used to determine final score and placing. If there is still a tie, then the score will be determined by adding the surfers top 3 waves to determine score and placing.

In the case of a missed wave affecting the final outcome of a heat, the average of the judges scoring the ride will be taken and the competitor will be awarded that score on the judge's sheet missing that wave. The majority of the judges must have seen the missed wave in order for the averaged score to be added.

4. JUDGING CRITERIA

Judges analyze the following major concepts when scoring waves:

- * Commitment & Degree of Difficulty
- * Innovative & Progressive Maneuvers
- * Combination of Major Maneuvers
- * Variety of Maneuvers
- * Speed, Power & Flow

NOTE: Emphasis of certain concepts is contingent upon the location & the conditions on the day, & as conditions change during the day.

5. The Interference Rule

The man on the inside at the point of takeoff has wave possession at all times. If two men stand together in a peak, and choose to go in the same direction, the man on the shoulder must exit the wave and may be penalized with an interference call. If two competitors come at each other from opposite directions on the same wave, the surfer who chooses the direction that has a more superior wave shall have right of way for that wave and the other surfer may not interfere with that surfer who has right of way. If the second man up fails to yield, he may receive an interference penalty. If two competitors collide on the same wave, a double interference may be called. If the judges determine that one of the two competitors was the cause of the collision, interference will be called on just the aggressor. The judges can also call a paddling interference on any contestant who interferes with a competitor who has established wave position. If two surfers ride two separate waves that come together into the same wave, the first surfer up has right of way. The penalty for all interferences is the deduction of half of the second scoring wave on each of the judges score cards. The majority of the judges must score the interference in order for the call to be effective. **The judge's decision on any interference call is final. No written protests allowed in this event!**

6. Un-sportsmanlike

Un-sportsmanlike conduct in the water during a heat, or on the beach, by contestants is considered grounds for disqualification from the event.

Any contestant seen in the contest area before or after his heat will be disqualified from the contest.

7. It is the contestant's responsibility to know the rules, or to ask the competition director for rules clarification before his heat.

8. **The use of any assistance for entering the wave will not be allowed. Hand paddling only.**
